

In the Claims

No claims were amended herein. A list of claims and their status is provided below.

1-22. (Cancelled)

23. (Previously presented) An article of manufacture comprising an admixture of a botulinum toxin, a local anesthetic agent, and a local vasoconstrictive agent.

24-31. (Cancelled)

32. (Previously presented) The article of claim 23, wherein said botulinum toxin is selected from the group consisting of botulinum toxin A, B, C, D, E, F, and G.

33. (Previously presented) The article of claim 32, wherein said botulinum toxin is botulinum toxin A.

34. (Previously presented) The article of claim 32, wherein said botulinum toxin is botulinum toxin B.

35. (Previously presented) The article of claim 23, wherein said local anesthetic is lidocaine, bupivacaine, or mepivacaine.

36. (Previously presented) The article of claim 23, wherein said local vasoconstrictive agent is epinephrine.

37. (Previously presented) An article of manufacture comprising an admixture of botulinum toxin and a local anesthetic.

38. (Previously presented) The article of claim 37, wherein said botulinum toxin is selected from the group consisting of botulinum toxin A, B, C, D, E, F, and G.

39. (Previously presented) The article of claim 37, wherein said local anesthetic is lidocaine, bupivacaine, or mepivacaine.

40. (Previously presented) The article of claim 37, said composition further comprising a local vasoconstrictive agent.

41. (Previously presented) The article of claim 40, wherein said local vasoconstrictive agent is epinephrine.

42. (Previously presented) An article of manufacture comprising an admixture of a botulinum toxin and a local vasoconstrictive agent.

43. (Previously presented) The article of claim 42, wherein said local vasoconstrictive agent is epinephrine.

44. (Previously presented) The article of manufacture of claim 23, 37, or 42, further comprising packaging material.

45. (Previously presented) The article of claim 44, wherein said packaging material comprises a label that indicates that said admixture is useful for treating a patient having an acute skin wound.

46. (Previously presented) The article of claim 45, wherein said label further indicates that local administration of said admixture enhances healing of said skin wound.
